Overhead Storage Solutions

These overhead storage racks are a great option for those big, bulky and hard to store items. Put a couple or more of these units up and you will soon be emptying out the wardrobes, that is, after the garage floor is cleared. Suspend bikes, ladders, surfboards or that favourite piece of timber underneath these units with our matching accessories.

Protect your goods with this ceiling hoister system. Drive your car under a suspended item, lower your item to the car, drive away! When you return, park car, attach pre-set straps, hoist item to ceiling, done! Now your gear is safely stored in its original place. You can do this over and over again for the life of the product or until your kayak finally wears out.

Store Locations

Brisbane Showroom
 Open Monday - Saturday 9am - 5pm
 Unit 9 - 70 Redland Bay Rd Capalaba

Up, Up and out of the way

Adjustable

Adjusts up and down 400 to 800 mm from the ceiling. To suit your changing needs

Clever

Be clever and increase your floor space by using your ceiling.

Do It Yourself

Only requires a few tools and following the instructions to install and save.

Heavy Duty

Up to 130kg of weight capacity and over one cubic metre of storage space off the floor.

What are Ceiling Storage solutions?

The Hyloft is a ceiling mounted adjustable racking system. Made from 7mm thick powder coated steel mesh and steel supports which bolt into the rafters of your ceiling. They are 1240 x 1240mm square and carry loads above 100 kilos.

The ceiling hoist system is made up of high quality stainless steel block and tackles that are used on maxi racer sailboats across the world. They come in different weight loads and all have a built in braking mechanism which allows you to suspend your cargo anywhere above the floor without the need of a cleat to tie off to.

Get it off the Floor NOW!!

Take the first step today by visiting our Showroom or website and view our complete range of garage storage solutions.
